your story

Congratulations! You are standing at the threshold of a new exciting chapter. In the heart of Amsterdam, @droog offers a stunning setting where your wedding day can truly come to life. With every detail carefully tailored to your vision, we will help you create a wedding day that reflects your unique bond and your exciting future ahead.

about

Situated in five historic buildings, @droog is more of a labyrinth than just a simply beautiful building. Each of the spaces have their own unique character, but all reflect the design sensibility that Droog brings, so you can be assured of an original event location that will certainly surprise your guests.

Back in the 17th century, this location hosted the so-called Staalmeestersgilde, a group of textile craftsman. Their members are portrayed on Rembrandt's masterpiece De Staalmeesters, which is on display in the Rijksmuseum.

Since 1993, Droog started gaining international fame as a Dutch design platform. Droog has put Dutch Design on the world map with exciting global projects, innovative ideas and products. Droog started occupying the building since 2004. Today, @droog represents Droog's legacy in the form of a cultural hub. You can now find an art gallery, cafe and meeting spaces - all surrounded by Droog Design.

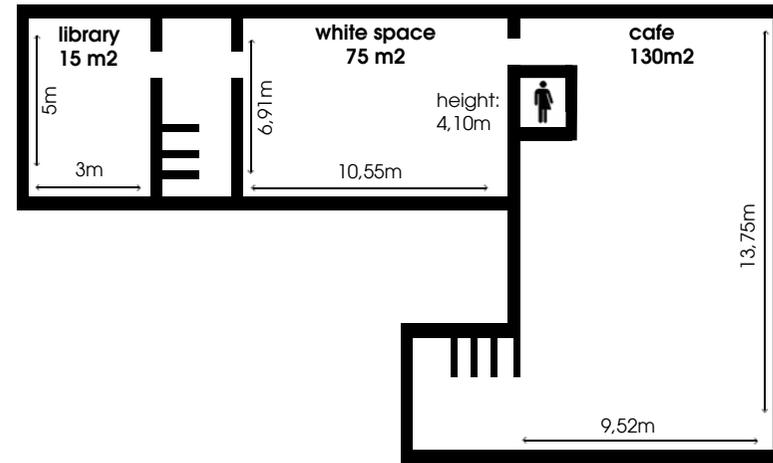

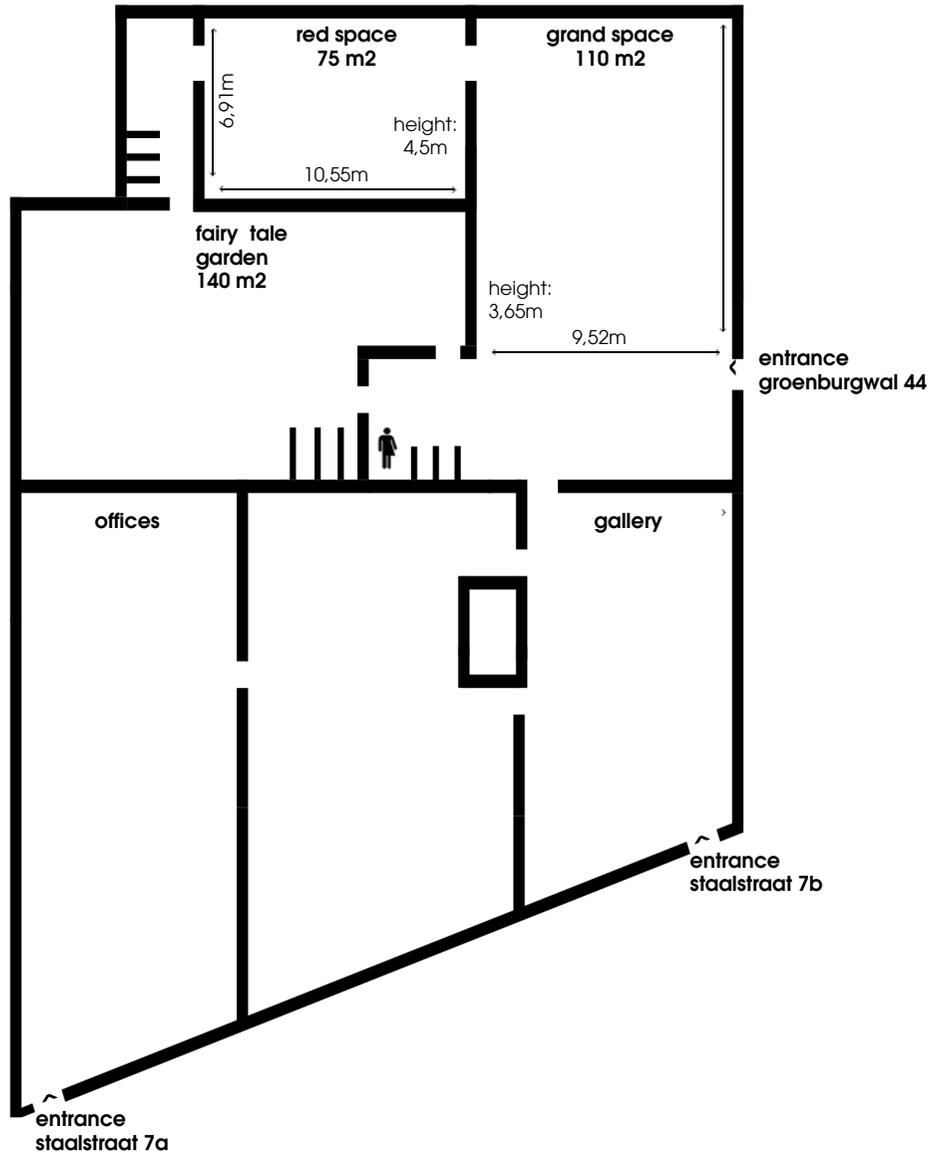

spaces

@droog has six spaces where weddings can be organised. Each space has their own unique character, but all of them include a Droog signature. The entire building (including the Fairytale Garden) is open for public, and decorated with art, one-of-a-kind design pieces and items from the Droog collection.
